SUMMARY

Enthusiastic engineering graduate with knowledge in coding and design, looking for a career where I can implement my coding knowledge to further enhance my skills. Proficient in C++ and Python. Ability to learn new software and technologies quickly.

EXPERIENCE

Automation Test Engineering Intern

LG Soft India

Jan 2023 - Present

Bangalore, IN

- Developed efficient methods utilizing APIs to extract data from the device.
- Composed automation scripts to evaluate channel broadcasts across varying regions.
- Verified UI components through the implementation of the aforementioned methods.

EDUCATION

B.E in Computer Science, Jyothy Institute of Technology

Expected 2023

Pre-University, Alva's pu college

2017 - 2019

High School, Excellent school

2014 - 2017

SKILLS

Programming Languages	: C++ (STL), Python
Web Technologies	: HTML, CSS, JavaScript
Database	: MongoDB, MySQL
Operating system worked on	: Linux (Ubuntu), Windows
Version Control system	: Git
Familiar with	: DSA, Java, PHP, ReactJS

PROJECTS

Sorting visualizer Developed a web-based animation application that visually represents four sorting algorithms through the use of HTML, CSS, and JavaScript. Implemented a bar graph to display data, followed by the application of a sorting algorithm. Created an automated and user-controlled animation feature, allowing users to set their own pace for the algorithm's execution.

Pharmacy Database Management system The project is a web-application for managing staff in a pharmacy. The project is implemented using HTML, CSS and JavaScript as front-end, PHP for back-end and MySQL for database.

PROFILES

- [Github](#)
- [Leetcode](#)
- [HackerRank](#)
- [CodingNinjas](#)

HOBBIES

- Listening podcasts in youtube.
- Watching the reviews related to smartphones.
